Welcome to a place where the hottest technology converges. The SyncMaster 150Mp uses the latest TFT technology to create a computer monitor, TV and video monitor in one. When you put the Power of Samsung technology to work for you, you'll experience a world of imagination beyond your wildest dreams. And with a slim, sleek design, this LCD flat panel multifunction monitor fits easily into any space, keeping your desktop, workspace or play space from being overloaded with multimedia equipment.

This is no ordinary monitor. The 150Mp lets you experience flexibility and functionality like never before. Advanced technology delivers superior image quality, razor sharp images and brilliant color. Now you can view TV or video while working on your computer applications with resizable PIP. And when it's time to take a break from work, cuddle up with the 150Mp to view TV or video with your computer off. There's even a remote control, so you can settle in for a long night. The 150Mp takes you to a place where the impossible becomes a reality. You've finally arrived.

#### Connector

15-pin D-sub, Composite Video, S-Video, TV Antenna
